

Established in 1994, the Indian Institute of Technology Guwahati (IIT Guwahati or IITG) stands as one of India's premier engineering institutions. Nestled along the picturesque northern banks of the Brahmaputra River in Guwahati, Assam, the institute offers a wide array of undergraduate, postgraduate, and doctoral programs across engineering, science, and humanities disciplines. Its sprawling 700-acre campus boasts state-of-the-art infrastructure, including academic buildings, research centers, hostels, sports facilities, and student activity centers, providing an enriching environment for learning and innovation.

Beyond academics, IIT Guwahati fosters a vibrant student life with numerous clubs, societies, and cultural events that cater to a diverse range of interests, from music and dance to entrepreneurship initiatives. The institute's emphasis on research and innovation has led to significant contributions in fields such as nanotechnology, biotechnology, renewable energy, and environmental science, with a strong emphasis on interdisciplinary collaboration and industry partnerships.

With a robust placement record, IIT Guwahati attracts leading companies from around the world, offering promising career opportunities to its graduates. Moreover, its alumni network, comprising successful professionals across various domains, further enhances its reputation and global reach. Additionally, the institute is deeply committed to outreach and social initiatives, actively engaging in projects aimed at promoting education, skill development, and social welfare in the northeastern region of India, thereby embodying its mission of academic excellence coupled with societal impact. Overall, IIT Guwahati stands as a beacon of excellence in engineering education, research, and community development, making it a preferred destination for students aspiring to make a difference in the world of technology and beyond.

Debsoc the debating club, is currently hiring new members to join its dynamic team. Aspiring debaters and public speakers are invited to apply and showcase their skills in argumentation, persuasion, and critical thinking. Meanwhile, for students interested in competitive programming, the institute will be conducting orientation sessions for ICPC on the upcoming Saturday. These orientations will provide valuable insights into the format, rules, and strategies for participating in these prestigious programming competitions. Additionally, the initial selection rounds for ICPC will commence alongside the orientation allowing participants to kickstart their journey in competitive programming and vie for a spot in the esteemed ICPC competition. Whether students are passionate about debating or programming, these opportunities offer a chance to enhance their skills, meet like-minded peers, and actively engage in extracurricular pursuits at IIT Guwahati.

Just outside the library at the Indian Institute of Technology Guwahati, students can find a CCD outlet.

In the heart of the campus, nestled among lush green trees and well-manicured lawns, IITG has home to the brightest and most talented students. Lohit hostel was spardha winner it has emerged victorious after a tough fight from Brahmaputra hostel. Just outside the gymkhana was Khoka, where students would often celebrate on special occasion. Students would gather around Khoka during their breaks, chatting and laughing as they enjoyed their snacks.

As you walk along Suryapath. you have core1 on left with state of the art facilities. To your right is Core2, a bustling hub of activity where students gather for group discussions and study sessions. Further down the road, you come across Core3, Core3 is a cradle of creativity and collaboration, where students work on projects that push the boundaries of knowledge and technology.

As you continue on your journey, you reach Core4 a symbol of the institution's rich heritage and tradition, with its grand facade and intricate detailing. Just after that on front side you have view point from which you can see the magnificent serpentine lake.

Student counseling at the Indian Institute of Technology Guwahati (IIT Guwahati or IITG) plays a crucial role in supporting the mental health and well-being of its student community. In recent years, the issue of student suicides has brought increased attention to the importance of mental health services on campus. Recognizing the need for proactive intervention, the institute has intensified its efforts to provide

comprehensive counseling and support mechanisms to students facing academic, personal, or emotional challenges. Trained counselors offer confidential guidance and assistance to students, helping them navigate through academic pressures, relationship issues, and other stressors. Additionally, workshops, seminars, and awareness campaigns are organized to promote mental health awareness and resilience-building among students.

Unfortunately, the tragic incident of a first-year student from CSE committed suicide in Brahmaputra hostel which has underscored the urgent need for enhanced mental health support within the campus community. This heartbreaking event has prompted the institute to redouble its efforts in implementing proactive measures to address mental health concerns and provide timely intervention and support to students in distress. By prioritizing student counseling and mental health support, IIT Guwahati aims to create a nurturing and supportive campus environment where students can thrive academically and personally while addressing the complex challenges of mental health in academia.
